

Consumer Healthcare Navigation

Flexible

- Optimize your entire benefits ecosystem by guiding members to your existing point solutions and resources, both internal and community based
- Provide a growing portfolio of chronic care, specialty care and lifestyle management options to support your unique populations and strategies
- Deliver higher levels of provider and household engagement using AI and machine learning
 - 84% of member households - 30% higher than the nearest competitor
 - 96% of providers when a member has a claim over \$100,000

Accountable

Because we have your best interest in mind:

- All offerings undergo regular independent industry reviews for performance validation
- Clients reduce their healthcare cost trend compared with industry average by 5.7% in year one, and nearly 15% by year five
- Healthcare navigation and care coordination solutions automatically support any point solution you add to your benefits program yielding stronger benefit results

Effective

Quantum Health exceeds national averages in these key measures:

- All offerings undergo regular independent industry reviews for performance validation
- Clients reduce their healthcare cost trend compared with industry average by 5.7% in year one, and nearly 15% by year five
- Healthcare navigation and care coordination solutions automatically support any point solution you add to your benefits program yielding stronger benefit results

Five times higher engagement with partners than the industry average
